

WHO WE ARE

Lake Cumberland Computers provides managed IT support, cybersecurity, Microsoft 365, networking, business phone systems, and camera/door-access systems to county and city government offices, medical practices, and small businesses — plus flat-rate in-home technology services for residents. Locally owned and operated from Russell Springs, Kentucky, with a small, stable team of technicians serving the region since 2001.

CORE SERVICES — BUSINESS & GOVERNMENT

- **Managed IT Support**
Ongoing care for your computers, servers, and staff — one call, handled.
- **Cybersecurity**
Practical protection against ransomware, phishing, and account takeover.
- **Microsoft 365**
Email, files, and Teams set up right — secured, backed up, supported.
- **Network & Wi-Fi**
Wired and wireless networks that stay up, in every corner of the building.
- **Business Phone Systems (VoIP)**
Modern phone service with auto-attendants, mobile apps, and real support.
- **Security Cameras & Door Access**
See your building and control who gets in — footage you can actually pull up.

RESIDENTIAL (FLAT-RATE, BOOK ONLINE)

In-Home Tech Help (first hour)	\$99
Virus & Malware Removal	\$149
New Computer Setup & Data Transfer	\$129
Home Wi-Fi Setup / Fix	\$129
Remote Support Session (30 min)	\$49

DIFFERENTIATORS

- Local accountability — technicians based in Russell Springs; response is a drive, not a dispatch queue
- Security-first practice — MFA, tested backups, patching discipline, staff training
- Compliance-aware — experience with records-holding offices and HIPAA-conscious practices
- Continuity — the same small, stable team year over year, with documented systems
